

Garrett Stack

Customer Enablement & Onboarding | Adoption Frameworks | Enterprise SaaS

Ireland · garstack@gmail.com · linkedin.com/in/garrett-stack · garstack.com

PROFESSIONAL SUMMARY

Enablement and onboarding specialist with 10+ years helping customers and teams get productive with complex enterprise software at DocuSign and Amdocs. Designed and scaled onboarding frameworks and reusable learning models used across multiple client engagements, and supported 200+ enterprise SaaS implementations, preparing customers for go-live alongside Customer Success, Product and Engineering. Focused on shortening time to productivity and increasing adoption through targeted onboarding, self-service content and data-driven improvement. Combines QQI Train the Trainer certification with a computer science background (MSc, Oracle Java certified, Certified ScrumMaster).

SELECTED ACHIEVEMENTS

- Designed and scaled onboarding frameworks and reusable learning models adopted across multiple client engagements, driving consistency at scale.
- Supported **200+ enterprise SaaS implementations** through onboarding, training and customer documentation.
- Improved customer adoption through targeted onboarding and workflow enablement.
- Produced video training and learning aids that enabled customer self-service.

SKILLS

Enablement & Onboarding: Onboarding framework design, go-live readiness, time-to-productivity, adoption programmes, capability gap analysis, self-service enablement content

Training & Content: Training needs analysis, curriculum design, blended learning (virtual, classroom, self-paced), Articulate, video training, customer documentation, QQI Train the Trainer

Learning Technologies: TalentLMS administration, LMS API reporting, learning platform development (Google and LinkedIn integrations)

Measurement: Adoption and engagement tracking, training KPIs, feedback analysis, Power BI, continuous improvement

Stakeholder Management: Partnership with Customer Success, Product, Engineering and Professional Services, SME collaboration, multi-project coordination, global multi-time-zone delivery

Technical & AI: Next.js, Python, Java (Oracle certified), API integrations, Docker, Kubernetes, cloud computing, n8n, Make, Tines, AI-assisted content creation

PROFESSIONAL EXPERIENCE

Career Break & Independent Projects | Course Designer, Developer & Technical Writer

2024 - Present

- **Learning platform:** Designing and building a learning platform and its courses, with Google and LinkedIn integrations and course reports generated through an LMS API.
- **Technical documentation:** Writing self-service documentation on Kubernetes, Docker and automation tooling, structured with the Diataxis framework (tutorials, how-to guides, reference, explanation).
- **Entertainment website:** Built and deployed nighthawks.live, integrating the Ticketmaster API (Next.js, GitHub, Vercel).
- **garstack.com:** Built a headless-CMS platform (Next.js, Sanity, Supabase) with automated email workflows and analytics tracking.
- **Upskilling:** Studying AI, digital technologies (Digital4Business Postgraduate Certificate) and the pharmaceutical industry (part-time BA in Pharmaceutical Operations, Innopharma Education).
- **House renovation:** Project-managed the renovation of an older house, (managing budget, trades and scheduling); now nearing completion and available for a full-time role.

DocuSign | Professional Services Training Specialist

Jan 2020 - Apr 2024

- Designed and scaled onboarding frameworks and reusable learning models used across multiple client engagements.
- Supported **200+ enterprise implementations** for global SaaS customers, preparing each customer for go-live alongside Professional Services, Customer Success, Product and Engineering.
- Delivered enterprise onboarding and training programmes that closed capability gaps and increased product adoption.
- Produced video training and learning aids that supported product adoption and customer self-service.
- Tailored onboarding content to each implementation's configuration, workflows and user roles.
- Used customer feedback and performance data with cross-functional teams to improve onboarding effectiveness.

Amdocs | Product Learning Specialist

Jun 2017 - Jan 2020

- Conducted learning-needs assessments and capability gap analyses to ensure operational readiness before go-live.
- Managed learning delivery for large-scale telecommunications deployments across a globally dispersed workforce.
- Developed blended learning programmes (classroom, virtual and self-paced) and standardised delivery processes and materials.
- Adapted content to different customer environments, workflows and operational requirements.

Self-Employed | Java Trainer / Course Designer (Contract)

Sep 2016 - Mar 2017

- Delivered structured Java training that prepared students for Oracle Java certification.
- Created hands-on programming exercises and course materials focused on practical, job-ready skills.

EDUCATION

- **BA in Pharmaceutical Operations** (part-time, in progress), Innopharma Education, expected 2027
- **Higher Diploma in Cloud Computing**, Munster Technological University (1st Class Honours)
- **MSc in Computer Science (Interactive Media)**, University College Cork. Project: interactive 3D training simulation for dental students (Unity, C#)
- **Higher Diploma in Computer Science**, University College Cork (1st Class Honours)

CERTIFICATIONS & PROFESSIONAL DEVELOPMENT

- **Train the Trainer**, Quality and Qualifications Ireland (QQI)
- **Oracle Certified Professional**, Java
- **Certified ScrumMaster**, Scrum Alliance
- **Postgraduate Certificate in Digital Technologies**, Digital4Business (in progress)
- **Generative AI for Educators & Teachers Specialisation**, Vanderbilt University
