

Garrett Stack

Learning & Data Analytics | Reporting & Automation | Power BI

Ireland · garstack@gmail.com · linkedin.com/in/garrett-stack · garstack.com

PROFESSIONAL SUMMARY

Analytics-minded enablement specialist with 10+ years in enterprise software at DocuSign and Amdocs, using training KPIs, learner engagement data and customer feedback to drive continuous improvement. Builds reporting and data workflows hands-on: course reports through an LMS API, analytics tracking on live websites, and automated API-driven workflows in n8n, Make and Tines. Combines Power BI and Python with a computer science background (MSc, Oracle Java certified, Higher Diploma in Cloud Computing) and a track record of explaining data to technical and non-technical stakeholders.

SELECTED ACHIEVEMENTS

- Used customer feedback and performance data with cross-functional teams to improve outcomes across **200+ enterprise SaaS implementations**.
- Built course reporting through an LMS API for a learning platform with Google and LinkedIn integrations.
- Built n8n workflows that merge data from Airtable and external REST APIs, with automated error monitoring and notifications.
- Instrumented a live website with analytics tracking (PostHog) to measure visitor engagement.

SKILLS

Analytics & Reporting: Power BI, training KPIs and metrics, learner engagement and participation tracking, feedback analysis, LMS API reporting, web analytics (PostHog)

Data Workflows & Automation: n8n, Make, Tines, Airtable, REST APIs, API pagination, data merging and transformation, error monitoring

Programming & Data Stores: Python, Java (Oracle certified), Supabase, Next.js, Git and GitHub

Cloud: Cloud computing (Higher Diploma), Docker, Kubernetes, Vercel

Communication: Presenting data to technical and non-technical audiences, stakeholder needs analysis, technical documentation, training delivery

AI: AI-assisted development (Claude Code), generative AI workflows

PROFESSIONAL EXPERIENCE

Career Break & Independent Projects | Developer, Data Workflows & Course Designer

2024 - Present

- **Learning platform:** Designing and building a learning platform with Google and LinkedIn integrations and course reports generated through an LMS API.
- **Automation & data workflows:** Completed n8n courses building a sales reporting workflow (HTTP requests, Airtable, conditional logic, code nodes) and merging customer data with external API data; completed Tines exercises on API pagination and troubleshooting.
- **garstack.com:** Built a headless-CMS platform (Next.js, Sanity, Supabase) with automated email workflows, analytics tracking and continuous deployment.
- **Entertainment website:** Built and deployed nighthawks.live, integrating live event data from the Ticketmaster API (Next.js, GitHub, Vercel).
- **Upskilling:** Studying AI, digital technologies (Digital4Business Postgraduate Certificate) and the pharmaceutical industry (part-time BA in Pharmaceutical Operations, Innopharma Education).
- **House renovation:** Project-managed the renovation of an older house, (managing budget, trades and scheduling); now nearing completion and available for a full-time role.

DocuSign | Professional Services Training Specialist

Jan 2020 - Apr 2024

- Used customer feedback and performance data with Customer Success, Product and Engineering to improve training effectiveness across **200+ enterprise implementations**.
- Tracked learner engagement and adoption to identify capability gaps and target onboarding improvements.
- Collected and verified technical details with SMEs to keep customer-facing documentation and training accurate.
- Designed and scaled onboarding frameworks and reusable learning models used across multiple client engagements.
- Delivered enterprise onboarding and training programmes that increased product adoption.

Amdocs | Product Learning Specialist

Jun 2017 - Jan 2020

- Conducted learning-needs assessments and capability gap analyses to ensure operational readiness.

- Standardised delivery processes and materials across large-scale telecommunications deployments.
- Managed learning delivery across a globally dispersed workforce.
- Adapted content to different customer environments, workflows and operational requirements.

Self-Employed | Java Trainer / Course Designer (Contract)

Sep 2016 - Mar 2017

- Delivered structured Java training that prepared students for Oracle Java certification.
- Created hands-on programming exercises and course materials focused on practical, job-ready skills.

EDUCATION

- **BA in Pharmaceutical Operations** (part-time, in progress), Innopharma Education, expected 2027
- **Higher Diploma in Cloud Computing**, Munster Technological University (1st Class Honours)
- **MSc in Computer Science (Interactive Media)**, University College Cork. Project: interactive 3D training simulation for dental students (Unity, C#)
- **Higher Diploma in Computer Science**, University College Cork (1st Class Honours)

CERTIFICATIONS & PROFESSIONAL DEVELOPMENT

- **Train the Trainer**, Quality and Qualifications Ireland (QQI)
- **Oracle Certified Professional**, Java
- **Certified ScrumMaster**, Scrum Alliance
- **Postgraduate Certificate in Digital Technologies**, Digital4Business (in progress)
- **Generative AI for Educators & Teachers Specialisation**, Vanderbilt University
