

Garrett Stack

Implementation Consultant / Engineer | Professional Services | SaaS Onboarding

Ireland · garstack@gmail.com · linkedin.com/in/garrett-stack · garstack.com

PROFESSIONAL SUMMARY

Professional services and implementation specialist with 10+ years in enterprise software. At DocuSign, supported 200+ enterprise implementations for global SaaS customers, working with Customer Success, Product and Engineering to prepare customers for go-live and tailoring training and documentation to each customer's configuration and workflows. Since 2024, has designed, built and deployed web and learning platforms with third-party API integrations (Ticketmaster, Google, LinkedIn, LMS). Combines a computer science background (MSc, Oracle Java certified, Certified ScrumMaster, Higher Diploma in Cloud Computing) with strong customer-facing communication.

SELECTED ACHIEVEMENTS

- Supported **200+ enterprise SaaS implementations** through onboarding, training and customer documentation.
- Built reusable onboarding models adopted across multiple client engagements, driving consistency at scale.
- Improved customer adoption through targeted onboarding and workflow enablement.
- Since 2024, designed and deployed platforms integrating Ticketmaster, Google, LinkedIn and LMS APIs, from requirements to live production.

SKILLS

Implementation & Delivery: Customer onboarding, go-live readiness, stakeholder needs analysis, tailoring solutions to customer workflows, multi-project coordination, global multi-time-zone delivery

Integration & Development: REST API integrations (Ticketmaster, Google, LinkedIn, LMS), Next.js, Python, Java (Oracle certified), Supabase, Sanity, Git and GitHub, GitHub Actions, Vercel, CI/CD

Cloud & Infrastructure: Cloud computing (Higher Diploma), Docker, Kubernetes

Stakeholder Management: Cross-functional partnership (Customer Success, Product, Engineering, Professional Services), SME collaboration, technical and non-technical communication

Project Delivery: Scrum (Certified ScrumMaster), project planning and coordination, rapid prototyping, requirements to live production

Enablement: Customer training, customer documentation, video training, LMS administration, AI-assisted development (Claude Code)

PROFESSIONAL EXPERIENCE

Career Break & Independent Projects | Developer, Integrations & Technical Writer

2024 - Present

- **Entertainment website:** Built and deployed nighthawks.live, integrating the Ticketmaster API for live event data, using Next.js, Git and GitHub, with continuous deployment on Vercel.
- **Learning platform:** Designing and building a learning platform with Google and LinkedIn integrations and course reports generated through an LMS API.
- **garstack.com:** Built a headless-CMS platform (Next.js, Sanity, Supabase) with automated email workflows, analytics tracking and continuous deployment via GitHub Actions and Vercel.
- **Technical documentation:** Writing documentation on Kubernetes, Docker and automation tooling (MkDocs, GitHub Pages).
- **House renovation:** Project-managed the renovation of an older house, (managing budget, trades and scheduling); now nearing completion and available for a full-time role.
- **Upskilling:** Studying AI, digital technologies (Digital4Business Postgraduate Certificate) and the pharmaceutical industry (part-time BA in Pharmaceutical Operations, Innopharma Education).

DocuSign | Professional Services Training Specialist

Jan 2020 - Apr 2024

- Supported **200+ enterprise implementations** for global SaaS customers, preparing each customer for go-live alongside Professional Services, Customer Success, Product and Engineering.
- Tailored training and customer documentation to each implementation's configuration, workflows and user roles.
- Designed and scaled onboarding frameworks used across multiple client engagements.
- Collected and verified technical details with SMEs to keep customer-facing material accurate.
- Delivered onboarding and training programmes that closed capability gaps and increased product adoption.

Amdocs | Product Learning Specialist

Jun 2017 - Jan 2020

- Conducted needs assessments and capability gap analyses to ensure operational readiness for large-scale telecommunications deployments.
- Adapted technical documentation and learning content to different customer environments, workflows and operational requirements.
- Standardised delivery processes and materials across globally dispersed deployments.
- Managed learning delivery across a globally dispersed workforce.

Self-Employed | Java Trainer / Course Designer (Contract)

Sep 2016 - Mar 2017

- Delivered structured Java training that prepared students for Oracle Java certification.
- Created hands-on programming exercises and course materials focused on practical, job-ready skills.

EDUCATION

- **BA in Pharmaceutical Operations** (part-time, in progress), Innopharma Education, expected 2027
- **Higher Diploma in Cloud Computing**, Munster Technological University (1st Class Honours)
- **MSc in Computer Science (Interactive Media)**, University College Cork. Project: interactive 3D training simulation for dental students (Unity, C#)
- **Higher Diploma in Computer Science**, University College Cork (1st Class Honours)

CERTIFICATIONS & PROFESSIONAL DEVELOPMENT

- **Train the Trainer**, Quality and Qualifications Ireland (QQI)
- **Oracle Certified Professional**, Java
- **Certified ScrumMaster**, Scrum Alliance
- **Postgraduate Certificate in Digital Technologies**, Digital4Business (in progress)
- **Generative AI for Educators & Teachers Specialisation**, Vanderbilt University

PORTFOLIO

- **Entertainment website:** nighthawks.live
